Summary

Recent BCS graduate with a strong foundation in Core Java, Object-Oriented Programming (OOP), Collections Framework, JDBC, SQL, and basic web technologies. Passionate about software development and problem-solving, with hands-on experience through academic projects and coding practice. Eager to begin a career as a Java Developer and contribute to innovative software solutions while continuously enhancing technical skills.

Technologies

Frontend: HTML,CSS,JavaScript

Backend: Java,Advance Java,Spring Boot

Database: SQL,PLSQL

Core Concepts: Data Structure Algorithms Object Oriented Programming, Database Management

Education

Babasaheb Ambedkar Marathwada University,Aurangabad

Jun 2023 – March 2025

Bsc in Computer Scienc

- CGPA: 7.2/10

Sunderrao Solanke Mahavidhyalay,Majalgaon HSC(XII)

February-2023

- Percentage: 59.50%

Maharashtra Vidhyalay,Moha SSC(X)

Mar-2021

- Percentage: 72.00%

Projects

Bank Managment System

- Functionality: Bank Management System

Technologies: Java, Servlets, JSP, JDBC, Oracle Database, HTML, CSS

Project Description:

Developed a web-based banking application for managing customer accounts and transactions. Implemented functionalities such as account creation, deposit, withdrawal, balance inquiry, and customer management. Used JDBC to connect the application with Oracle Database. Designed user-friendly web pages using HTML and CSS. Applied Object-Oriented Programming concepts to create a modular and maintainable application.
